CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Habib Metropolitan Bank Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of Habib Metropolitan Bank Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated profit and loss account and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policy information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Credit loss allowance against advances and off-balance sheet items: (Refer note 10.6 & 20.1 to the consolidated financial statements)	
	<p>As at 31 December 2024, the Bank's Credit loss allowance against advances and off-balance sheet items amounted to Rs. 30,475 million and Rs. 354 million, respectively.</p> <p>As per the BPRD Circular No. 07 of 2023, the Bank adopted requirements of IFRS 9 along with the Application Instructions issued by State Bank of Pakistan (SBP) (hereafter referred as "application instruction of IFRS 9") from 1 January 2024 which requires the Bank to recognise Expected Credit Losses (ECL) on advances and off-balance sheet items. The estimation of ECL, involves judgement and complexity.</p>	<p>Our audit procedures, amongst others, included the following:</p> <ul style="list-style-type: none">Performing risk assessment procedures over the credit loss allowance against advances and off-balance sheet exposure within the Bank's consolidated financial statement. As part of these risk assessment procedures, identifying the elements associated with risk of material misstatement on application including those arising from judgements over the estimation of ECL either due to, methods / models, assumptions or data.Assessing the design, implementation and operating effectiveness of key controls established by the Bank over measurement of ECL and provision calculated as per PR.

S. No.	Key Audit Matter	How the matter was addressed in our audit
	<p>The key areas which are subject to complexity and judgement in the estimation of ECL are:</p> <ul style="list-style-type: none"> ▫ Model estimations - judgmental modelling and assumptions are used to estimate ECL which involves determining Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD). Respective model's assumptions are key driver of uncertainty, and are required in the application of these model for calculation of the ECL estimate. ▫ Economic scenarios - IFRS 9 requires the Bank to measure ECL on an unbiased forward-looking basis reflecting a range of future economic conditions. Complex Statistical methodology is applied in determining the forward-looking economic scenarios used as an input to calculate ECL, the associated scenario probability weightings, and the key economic variables that drive the scenarios. ▫ Qualitative criteria - the criteria selected to identify a SICR involves judgment and can lead to unreliable ECL recognised for certain portfolios. <p>In line with the application instructions of IFRS 9, the Bank must compare the ECL for Stage 3 with the provision determined under the Prudential Regulations (PR) issued by the SBP. The PR requires specific provisioning against the advances on the basis of time-based criteria which should be supplemented by a Bank's subjective evaluation of credit worthiness of customers. The determination of provision, therefore, involves use of management's judgement, on a case-to-case basis, taking into account factors such as the economic and business conditions, borrowers' repayment behaviors and realizability of collateral held by the Bank.</p> <p>Because of the high degree of estimation uncertainty and complexity involved in the calculation of ECL we considered the area of ECL as a key audit matter.</p>	<ul style="list-style-type: none"> ▫ We involved in-house specialist who assisted in the following: <ul style="list-style-type: none"> – Evaluating the Bank's ECL model methodologies for compliance with application instructions of IFRS 9 – Assessing the reasonableness of the Bank's methodology for determining the economic scenarios used and the probability weightings applied to them by independently validating and challenging the assumption, methodologies, and outputs of the models; – Assessing the reasonableness of macro-economic variables and economic forecasts by comparing these to external sourced data extracted; and – Performing independent testing of the Expected Credit Loss (ECL) allowance on a sample basis. ▫ Assessing the appropriateness of SICR criteria applied by the Bank by ensuring that the SICR criteria and staging methodology are consistent with the application instructions of IFRS 9. ▫ Ensuring relevance and completeness of the key inputs into the ECL calculations with their respective sub-ledgers and general ledgers. ▫ Performing testing on sample basis over key inputs into the ECL calculations with their respective source documents. ▫ Performing sensitivity analysis on the key assumption, that is probability weighted economic scenarios, to assess reasonableness and the risk of biasness by changing weights assigned to each economic scenario. ▫ In accordance with the PR, we sampled at least sixty percent of the total advances outstanding exposure and performed credit reviews through the following substantive procedures: <ul style="list-style-type: none"> – verifying repayments of advances / interest installments and checked that non-performing advances have been correctly classified and categorised based on the number of days overdue; – examining watch list accounts and, based on review of the individual facts and circumstances, discussions with management and our assessment of financial conditions of the borrowers, formed a judgement as to whether classification of these accounts as performing was appropriate; and

S. No.	Key Audit Matter	How the matter was addressed in our audit
		<ul style="list-style-type: none"> <li data-bbox="869 443 1380 568">– assessing the accuracy of specific provision made against non-performing advances in accordance with the criteria prescribed under the PRs by performing recalculation. <li data-bbox="837 584 1380 837">▫ Assessing the appropriateness of ECL categorised as Stage 3 by performing a comparison of ECL computed, through the use of methodology and models with the provision required to be computed as required under the PR to ensure that an amount which is higher of the ECL and PR requirements is appropriately recognized for these stage 3 customers pursuant to the requirement of application instructions of IFRS 9. <li data-bbox="837 853 1380 949">▫ Evaluating the adequacy of the financial statement disclosures, including disclosures of key assumptions, judgements and sensitivities.

Information Other than the Unconsolidated and Consolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if,

individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

2.1 These consolidated financial statements represent separate financial statements of the Group. The consolidated financial statements of the Bank and its subsidiary companies are being separately issued.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic mode, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such, but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.

Key financial figures of the Islamic banking branches are disclosed in Annexure II to these consolidated financial statements.

2.2 The Group believes that there is no significant doubt on the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

2.3 Statement of Compliance

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP), as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP) from time to time.

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of the IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

2.3.1 SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for Banking Companies in Pakistan through BSD Circular Letter No. 10 dated 26 August 2002 till further instructions. Also, SECP has deferred the applicability of IFRS 7, 'Financial Instruments: Disclosures' through its notification S.R.O 411 (I) / 2008 dated 28 April 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements.

2.3.2 The disclosures requirements of IFAS 3, 'Profit and Loss Sharing on Deposits' for Islamic Banking Institutions (IBIs) relating to annual and quarterly financial statements have been based on a format prescribed by SBP vide BPRD Circular Letter No. 02 dated 09 February 2023.

2.3.3 The disclosures made in these consolidated financial statements have been based on a format prescribed by SBP vide BPRD Circular No. 02 dated 09 February 2023 with further addition made vide BPRD Circular Letter No. 13 of 2024, dated 01 July 2024 and accounting and financial reporting standards as applicable in Pakistan.

Similarly, the requirement to carry unquoted securities at fair value has been deferred until January 1, 2025. Furthermore, Islamic banking institutions may follow IFAS 1 & 2 where applicable and continue existing accounting practices for other Islamic products until further instructions. Moreover, Banks have received exemption of recording income at Effective interest rate. Consequently, these deferred requirements of IFRS 9 have not been considered in the preparation of these financial statements. Furthermore, Banks are required to apply modification accounting retrospectively however it will be applied only on the loans modified on or after 1st January 2020 as allowed by SBP.

2.4 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current year

As directed by SBP via BPRD Circular letter no. 7 of 2023 dated 13 April 2023 of IFRS 9, (Financial Instruments) is effective in Pakistan for periods beginning on or after January 1, 2024. In addition, due to the application of IFRS 9, SBP vide BPRD Circular No. 02 dated February 9, 2023, has also amended the format of the annual financial statements. Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 & IFRS 7	1 January 2025
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28	Not yet finalized

The amendments in IFRS 9 will have a significant impact on the Group's financial statements while the management of the Group is assessing the impact of the changes in the other mentioned standards on the Group's financial statements.

2.6 Critical Accounting Estimates and Judgments

The preparation of these consolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets, liabilities, income, and expenses. The areas where various assumptions and estimates are significant to the Group's consolidated financial statements or where judgement was exercised in the application of accounting policies are as follows:

- i) Classification, Valuations and impairment of investments (note 4.4)
- ii) Provision against non-performing loans and advances (note 4.5.1)
- iii) Depreciation (note 4.6.2) and Amortisation (note 4.7)
- iv) Valuation of Property and equipment (4.6.2) and Non-banking assets acquired in satisfaction of claims (note 4.8)
- v) Taxation (note 4.11)
- vi) Defined benefit plan (note 4.13.1)
- vii) Compensated Absences (note 4.13.2)
- viii) Right-of-use assets (note 4.6.3) and related lease liability (note 4.14)
- ix) Impairment of non-financial assets (excluding deferred tax asset) (note 4.21)

Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of revision and future periods, if the revision affects both current and future periods.

3. BASIS OF MEASUREMENT

Accounting convention

These consolidated financial statements have been prepared under the historical cost convention except for certain fixed assets and non-banking assets acquired in satisfaction of claims which have been carried at evaluated amounts, certain investments and derivative contracts which have been marked to market and are carried at fair value, obligations in respect of staff retirement benefits and lease liabilities which have been carried at present value and right-of-use assets which are initially measured at an amount equal to the corresponding lease liabilities (adjusted for any lease payments and costs) and depreciated over the respective lease terms.

4. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these consolidated financial statements are consistent with those followed in the preparation of the consolidated financial statements for the year ended December 31, 2023, except as disclosed in note 4.1 below.

4.1 Changes in accounting policies

4.1.1 Revised format of consolidated financial statements

SBP through its BPRD Circular No. 02 dated February 9, 2023, has amended the format of annual financial statements of banks. All banks are required to prepare their annual financial statements on the revised format effective from accounting year starting from January 1, 2024. Accordingly, the Group has prepared these annual financial statements on the new format prescribed by the SBP. The adoption of the new format contains additional

disclosures and certain changes in the financial statements' presentation, primarily due to the implementation of IFRS 9 as applicable in Pakistan. However, the corresponding figures continue to be classified and disclosed in accordance with the previous financial accounting and reporting framework.

Adoption of revised financial statements format has also resulted in following material changes (due to which the corresponding presentations have also been changed):

- Right-of-use-assets (note 12) amounting to Rs 8,654,445 thousands (December 31, 2023: Rs 7,625,010 thousands) which were previously shown as part of property and equipment (note 11) are now shown separately on the Consolidated Statement of Financial Position.
- Lease liabilities (note 18) amounting to Rs 10,519,685 thousands (December 31, 2023: Rs 9,086,176 thousands) which were previously shown as part of other liabilities (note 20) are now shown separately on the Consolidated Statement of Financial Position.

4.1.2 IFRS 9 - Financial Instruments

During the period, as directed by the SBP vide its BPRD Circular No. 07 of 2023 dated April 13, 2023, IFRS 9: 'Financial Instruments' (the Standard) became applicable to the Group.

BPRD Circular No. 03 of 2022 issued by SBP provides detailed instructions on implementation of IFRS 9 (the Application Instructions) for ensuring smooth and consistent implementation of the standard across banks. Furthermore, SBP vide its BPRD Circular Letter No. 16 of 2024 and SBP wide BPRD Circular Letter No. 01 of 2025 has made further amendments in the application instructions issued. All deferments made through these amendments are disclosed in statement of compliance.

The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'expected credit losses' (ECL) approach rather than 'incurred credit losses' approach as previously followed. The ECL has impact on all the assets of the Group which are exposed to credit risk.

The Group has adopted IFRS 9 in accordance with the Application Instructions from January 1, 2024, using the modified retrospective approach and has not restated comparatives for the 2023 reporting period and the differences in carrying amount of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at 1 January 2024, as permitted under the specific transitional provisions in the Standard. Accordingly, the information presented for 2023 does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2024 under IFRS 9.

- Certain non-trading debt securities are held by the Bank in separate portfolios and are managed with an objective of realising cash flows through sale. The Bank primarily focuses on fair value information and uses that information to assess the securities' performance and to make decisions. In addition, certain asset-backed securities have contractual cash flows that are not SPPI. These assets are therefore measured at FVTPL under IFRS 9.
- Certain debt securities are held by the Bank in separate portfolios to meet everyday liquidity needs. The Bank seeks to minimise the costs of managing these liquidity needs and therefore actively manages the return on the portfolio. That return consists of collecting contractual payments as well as gains and losses from the sale of financial assets. The investment strategy often results in sales activity that is significant in value. The Bank considers that under IFRS 9 these securities are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Moreover, certain equity investments held by the Bank for strategic purposes have been designated under IFRS 9 as at FVOCI.
- Corporate debt securities that were previously classified as held-to-maturity are now classified at amortised cost. The Bank intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding. (HTM to AC).
- Advances except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans are stated at cost, whereas TERF scheme and staff loans are stated at amortised cost.
- The above balances includes the balance of subsidiaries on which IFRS 9 became applicable in prior years. Accordingly, the above impact only includes the impact on the Bank balances only.

4.1.2.2 Impact on regulatory capital

The introduction of IFRS 9 has resulted in reduction in regulatory capital of The Groups, which has reduced their lending capacity and ability to support their clients. In order to mitigate the impact of ECL models on capital, SBP has determined that it may be appropriate for The Groups to introduce a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. Annexure B of the 'Application Instructions' issued by SBP has detailed the transitional arrangement.

The transitional arrangement applies only to provisions for stage 1 and stage 2 financial assets. The transitional arrangement must adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e., added back) to CET1 capital over the "transition period" of five years.

Moreover, the SBP has allowed to adjust the amount of Stage 1 and Stage 2 provisions in Tier 2 Capital that have not been added back to CET 1 and vice versa as per Annexure-A of BPRD Circular no 16 of 2024 dated July 29, 2024.

Had IFRS 9 not been applied then CAR would have been higher by 18 bps from 18.88% to 19.06%.

4.1.2.3 Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed based on business model and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and Interest (SPPI) criteria are required to be measured at fair value through profit and loss (FVTPL) regardless of the business model in which they are held.

Recognition and initial measurement

Debt securities issued are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price. The fair value of a financial asset on initial recognition is generally its transaction price. If The Group determines that the fair value on initial recognition differs from the transaction price then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in consolidated profit and loss account on an appropriate basis over the life of the asset but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out. Advances other than Temporary Economic Refinance Facility (TERF), staff loans and modified loans are initially measured at transaction price, i.e., the amount of loan disbursed at disbursement date.

Staff loans and Temporary Economic Refinance Facility (TERF) loans are recognised at fair value at the time of disbursement. The fair value is determined by discounting the expected future cash flows using the prevailing market rates for instruments. The difference between the disbursed amount and the fair value at initial recognition is recorded as "Deferred staff loan impact" for Staff loans under other assets and "Deferred grant income - TERF" for TERF loans under other liabilities.

Classification

Financial Assets

On initial recognition, a financial asset is classified as either amortised cost, FVOCI, or FVTPL where as Advances except for staff financing, the Temporary Economic Refinance Facility (TERF), and modified financing, are carried at cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, The Group may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans which are measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless The Group changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

IFRS 9 allows entities to irrevocably designate, at initial recognition, a financial asset as measured at FVTPL if doing so eliminates or significantly reduces any 'accounting mismatch' that would otherwise arise from measuring assets or liabilities or recognizing gains and losses on them on different basis. The SBP instructions state that banks may apply the fair value option if, in addition to the IFRS 9 criterion, (a) it is consistent with a documented risk management strategy, and (b) fair values are reliable at inception and throughout life of the instrument.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in scope of the standard are never bifurcated. Instead, the whole hybrid instrument is assessed for classification.

Financial Liabilities

Financial liabilities are either classified as fair value through profit and loss account (FVTPL), when they are held for trading purposes, or at amortised cost. Financial liabilities classified as FVTPL are measured at fair value and all the fair value changes are recognised in the consolidated profit and loss account. Financial liabilities classified at amortised cost are initially recorded at their fair value and subsequently measured using the effective interest rate method. Markup expense and foreign exchange gain and losses are recognised in consolidated profit and loss account. Any gain or loss on derecognition is also recognised in consolidated profit and loss account.

4.1.2.4 Business model assessment

A financial asset is classified as either Held to collect, Held to collect and sale and Others based on Business model assessment. The Group makes an assessment of the objective of a business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to the management. The assessment requires judgement based on facts and circumstances on the date of assessment. The assessment considers the policies and objectives for the portfolio of financial assets, risk affecting, performance evaluation, business manager's compensation and historical sales information.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

4.1.2.5 Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as interest margin.

In assessing whether the contractual cash flows are SPPI, The Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, The Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit The Group's claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

A prepayment feature aligns with SPPI if it mainly represents unpaid principal and profit, including reasonable compensation for early termination.

4.1.2.6 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any markup or dividend income, are recognised in consolidated profit and loss account.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Markup, foreign exchange gains and losses and impairment are recognised in the consolidated profit and loss account.
Debt investments at FVOCI	These assets are subsequently measured at fair value and is assessed for impairment under the new ECL model. Markup income is calculated using the effective interest method and includes amortisation of premiums and accretion of discount, foreign exchange gains and losses and

impairment are recognised in the consolidated profit and loss account. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the consolidated profit and loss account.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit and loss account unless the dividend clearly represents a recovery of part of the cost of the investment, in which case they are adjusted from the carrying value of investment. Other net gains and losses are recognised in OCI and are never reclassified to profit and loss account.

Advances

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF) and staff financing, modified financing which are carried at amortised cost, net of expected credit loss allowances.

4.1.2.7 Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance (or impairment allowance before 1 January 2024).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

4.1.2.8 Calculation of markup income and expense

Income on financial assets, comprising performing advances and debt securities and other financial assets, of the domestic operations is recognised on a time proportion basis as per the terms of the contract. However, where debt securities, classified as investments in the financial statements, are purchased at premium or discount, such premium / discount including the transaction cost is amortised through the consolidated Profit and Loss account over the remaining maturity of the debt security using the effective interest rate method. Similarly, under the local regulatory requirement, income recoverable on classified advances and investments (debt securities), is recognised on a receipt basis.

Income on rescheduled / restructured advances and investments is recognised as permitted by SBP regulations.

Markup expense on financial liabilities (comprising deposits, subordinated debts, and borrowings) is recognised on an accrual basis in the period in which it is incurred, based on their contractual rates.

Islamic Banking Institutions (IBIs) are allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue the existing accounting methodology on other Islamic products until issuance of further instruction in this regard.

4.1.2.9 Derecognition

The Group derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or

-
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
 - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
 - The Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in OCI is recognised in the consolidated profit and loss account, except that in case of the derecognition of equity securities held at FVOCI, cumulative gains or losses are transferred to unappropriated profit.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

4.1.2.10 Modification

Financial assets

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of to its customers. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in profit and loss account as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If The Group plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual loans are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then The Group first recalculates the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognised the resulting adjustment as a modification gain or loss in profit and loss account. Any costs or fees incurred, and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as markup income calculated using the effective interest rate method.

Financial liabilities

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability recognised and consideration paid is recognised in profit and loss account. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit and loss account. For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective interest rate on the instrument.

4.12.11 Impairment

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), lease receivables, and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Financial assets where 12-month ECL is recognised are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, The Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI, and finance lease receivables are credit_impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan by The Group on terms that The Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered credit-impaired.

Under the IFRS 9 Application instructions, The Group is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Group is required to calculate ECL on its non-performing financial assets as higher of provision under Prudential Regulations (PR) and ECL under IFRS 9.

For Stage 3, The Group calculates the ECL against corporate, commercial & SME loan portfolios as higher of PR and ECL under IFRS 9 at borrower / facility level, whereas against the retail borrowers The Group calculates the ECL at higher of PR and ECL under IFRS 9 at segment/product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

ECL is the probability weighted estimate of expected cash shortfalls which is determined by multiplying the probability of default (PD) with the loss given default (LGD) with the expected exposure at the time of default (EAD). Based on the requirements of IFRS 9 and Application Instructions, The Group has performed an ECL assessment considering the following key elements:

- Probability of default (PD):

The Probability of Default represents the likelihood that a counterparty will default within a specific timeframe, such as 12 months (12-month ECL for Stage 1) or the lifetime of the financial instrument (lifetime ECL for Stage 2). The Group calculates PD on advances which is further bifurcated into retail and non retail portfolios. Following is the methodology through which non retail and retail PD are calculated:

- Non-Retail PD:

The Group utilizes its internal risk rating system to assign Obligor Risk Ratings (ORR) to borrowers. The Group has used a statistical method called Markov Chain, also known as Transition Matrices/Migration matrices, for the estimation of TTC PDs associated with each of its Obligor Risk Rating (ORR).

- Retail PD:

The Group has used market benchmark PDs for retail segments. The Group has recently started developing its retail portfolio and does not have sufficient data to develop PD and LGD Models. In the absence of required data and after discussing with consultants, management has decided to use the market benchmark PDs and BASEL prescribed 45% LGD for retail segment. Moreover, the Group has used its internal data to develop the TTC- PD models using Pluto and Tasche technique for the calculation of Expected Credit Loss (ECL) on Investments, Balances with other banks (BWOB) and Lending to FIs. TTC- PD were converted into PIT PDs by applying Macro Economic variable with Vasicek approach.

– Incorporation of forward-looking information:

Forward looking information is incorporated to convert TTC PD to Point in Time Probability of Default (PiT) PD. The Group has estimated the PiT PDs using the Vasicek framework in its PD Model. For this purpose, The Group incorporated 5-year forecasts obtained from the Macro Economic Variable (MEV) database of the International Monetary Fund (IMF). The MEVs used in the Model are the Consumer Price Index (CPI) and Gross Domestic Product (GDP) etc.

– Exposure at Default (EAD):

The Group has defined EAD for financial assets carried at an amortised cost equal to principal plus accrued markup at the default date. Each repayment date is assumed to be a default point in the model, and the ECL is calculated on the EAD at each repayment date and discounted at the effective interest rate to arrive at the discounted ECL under three scenarios, i.e, base, worst, and best-case scenarios. The unutilized exposures are multiplied with Credit Conversion Factors (CCFs) to compute the EAD of revolving facilities. For non revolving facilities, CCF is only applied to unutilized exposures when The Group doesn't have unconditional right to revoke the undrawn portion. Additionally, cash and cash equivalent collateral The Group holds against non-retail facilities are adjusted from the EAD, and ECL is calculated on the net amount. The Group has developed CCF models for its revolving and non revolving facilities based on the historical utilization of credit limits which are currently being applied to the revolving portfolio.

– Loss Given Default:

Loss Given Default (LGD) represents the forecasted economic loss in the event of default, calculated independently of credit quality and applied consistently across all stages. LGD is determined as the percentage of loss expected in case of borrower default, incorporating historical data, cash recovery experience (including settlements), costs and time of recoveries, collateral realizations, and recovery projections. For non-collateralized portfolios, The Group estimates LGD based on actual recoveries from defaulted accounts over a historical period of 8 years prior to the assessment date. Forward-looking information is incorporated into the LGD calculation to reflect the impact of macroeconomic factors on the expected recoveries. The Group uses a statistical approach, specifically the Jacob Frye model, to estimate Point-in-Time (PiT) LGD. This model accounts for forward-looking information, including macroeconomic variables, to estimate LGD for all credit segments.

Purchase or Originated Credit Impaired Financial Assets

Purchase or Originated Credit Impaired (POCI) financial assets are assets that are credit-impaired on initial recognition. Expected credit loss for these assets is not recognised in a separate loss provision on initial recognition, as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. Consequently, POCI assets do not carry an impairment allowance on initial recognition. The amount recognised as a loss allowance after initial recognition is equal to the changes in lifetime ECL since the initial recognition of the asset.

Presentation of allowance for Expected Credit Loss in the Statement of Financial Position

Loss allowances for ECL are presented in the Consolidated Statement of Financial Position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets.
- loan commitments and financial guarantee contracts: as a provision in Other Assets / Liabilities.

-
- where a financial instrument includes both a drawn and an undrawn component, and The Group does not identify the ECL on the loan commitment component separately from those on the drawn component and instead presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and
 - debt instruments measured at FVOCI: no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in retained earnings.

4.1.2.12 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Group used several qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or markup payments are 60 & 120 days past due for advances and trade bills respectively. Qualitative factors include the Watchlist and restructured/rescheduled.

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of PR issued by SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply. However, a minimum period of 06 months from the end of downgrade reason is required before any facility is moved back to Stage 1 from Stage 2. For a facility to move back from Stage 3 to Stage 2, it should meet the criteria defined under the respective Prudential Regulations for de-classification of account / facility and after observing of 03 months cooling off period. An exposure cannot be upgraded from Stage 3 to Stage 1 directly and should be upgraded to Stage 2 initially.

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022. However, banks are free to choose more stringent days past due criteria.

4.1.2.13 Write-offs

Financial assets are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when The Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit and loss account and OCI.

Financial assets that are written off could still be subject to enforcement activities in order to comply with The Group's procedures for recovery of amounts due.

4.1.2.14 Off-setting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, The Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

4.1.2.15 Undrawn loan commitments and guarantees

Financial guarantees' are contracts that require The Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'Loan commitments' are firm commitments to provide credit under pre-specified terms and conditions.

When estimating lifetime ECL for undrawn loan commitments, The Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the loans are drawn down, based on a probability-weighting of the three scenarios.

4.1.2.16 Governance, ownership and responsibilities

The Group has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Group's Risk Management Division has developed Models/ methodologies for PD, LGD and Credit Conversion Factors (CCF). These models are validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Risk Department defines the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach. Additionally, the Risk department also take the ownership of the impact of ECL on bank's capital.

Risk Management division of the Group is responsible for the implementation of IFRS 9. Further the Group has engaged a consultant for the calculation of ECL on a quarterly basis. The same is provided to the Risk Management Division which reviews and assesses the ECL and submits to the same to Finance Division for financial reporting requirements.

Finance Division then uses the financial information for preparing the financial statements and related financial ratios.

Risk Management Division prepares and submits the analysis to board risk committee on a quarterly basis. Further financial statements prepared on the basis of IFRS-9 is then submitted to the Board Audit Committee on a quarterly basis.

The IT Department provides support to all the stakeholders for preparing and extracting the data required for the risk parameters modelling. IT department also provides support to project owners for system development and upgrades.

4.2 Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents include cash and balances with treasury banks, balances with other banks and national prize bonds less overdrawn nostro balances.

4.3 Lendings to / borrowings from financial institutions

The Group enters into transactions of borrowing (repo) from and lending (reverse repo) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

Purchase under resale agreement (reverse repo)

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in these consolidated statement of financial position and instead amounts paid under these arrangements are included in lendings to financial institutions. The difference between purchase and resale price is accrued as markup income on a pro-rata over the term of the agreement.

Sale under repurchase agreement (repo)

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in these consolidated statement of financial position and are measured in accordance with accounting policies for investments and amount received under these agreements are recorded as repurchase agreement borrowings. The difference between sale and repurchase price is accrued as markup expense on a pro-rata basis over the term of the repo agreement.

Bai muajjal

In Bai Muajjal, The Group sells sukuk on credit to other financial institutions. The sale / purchase price is agreed at the time of sale and such proceeds are received at the end of the credit agreed period. The sukuk sold under bai muajjal transaction are derecognised on the date of disposal. Receivable against such sale is recognised at the agreed sale price. The difference between the sale price and the carrying value on the date of disposal is taken to income on straight line basis.

Musharaka / Modaraba

In Musharaka / Modaraba, The Group invests in the Shariah compliant business pools of the financial institutions at the agreed profit sharing ratio. Loss, if any will be shared between the parties as per the investment.

Musharaka from the SBP under Islamic Export Refinance Scheme (IERS)

Under IERS, The Group accepts funds from the SBP under Shirkat-ul-aqd to constitute a pool for investment in Islamic export refinance portfolio of The Group under the guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

Modaraba investment from the SBP under various long term Islamic refinance schemes

Under various long term Islamic refinance schemes of the SBP, The Group accepts funds from the SBP which are received on Modaraba basis for investment in the pool of The Group. The profit of the pool is shared as per the agreed profit sharing ratio of the pool and the weightages assigned to these investments.

Certificates of Investment (Musharakah)

Certificates of Investment (COI's) are carried at principal amount in these consolidated financial statements. FHM and HMM invest the amount received from COI holders on the basis of full participation in the profit and loss. The profit is allocated between COI holders and certificate holders as per agreed ratio. Certificate holder's share of profit is recognised as financial expense in the period of its occurrence. On the basis of projected rate of profit, profit on musharakah finance

is determined. After determination of the actual rate, the effect of any difference between actual and projected rate of profit is accounted for, at the end of each quarter.

4.4 Investments (Applicable before 01 January 2024)

4.4.1 Investments in subsidiaries are stated at cost less provision for impairment, if any.

4.4.2 Other investments are classified as follows:

Held-for-trading

These are securities, which are either acquired for generating profit from short-term fluctuation in market prices, interest rate movements, dealers margin or are securities included in a portfolio in which a pattern of short-term trading exists.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturities that are held with the positive intention and ability to hold till maturity.

Bai Muajjal transactions undertaken with the Government of Pakistan are disclosed as investments.

Available-for-sale

These are investments that do not fall under the held-for-trading or held-to-maturity categories.

4.4.3 Initial Measurement

Investments (other than held-for-trading) include transaction costs associated with the investments. In case of held-for-trading transaction costs are charged to profit and loss account when incurred.

All "regular way" purchases and sales of investments are recognised on the trade date, i.e., the date that the Group commits the purchase or sell the asset. Regular way purchases or sales are purchases or sales of investments that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Subsequent Measurement

Held-for-trading

Investments classified as held-for-trading are subsequently measured at fair value. Any unrealised surplus / deficit arising on the revaluation of the Group's held-for-trading investment portfolio is taken to the profit and loss account.

Held-to-maturity

Investment securities carried till their maturity are carried at amortised cost.

Available-for-sale

Quoted securities classified as available-for-sale are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation of quoted securities classified as available for sale is kept in a separate account shown in equity. Surplus / deficit arising on these securities is taken to the profit and loss account when actually realised upon disposal or when the investment is considered to be impaired. Unquoted equity securities are valued at the lower of cost and break-up value. Break-up value of these securities is calculated as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses, if any.

Impairment

Provision for diminution in the value of term finance certificates and sukuk certificates are made as prescribed under Prudential Regulation issued by the SBP.

Provision for impairment in the value of available-for-sale and held-to-maturity securities (other than Federal Government securities, term finance certificates and sukuk certificates) is made after considering objective evidence of impairment, if any, in their value (as a result of one or more events that may have an impact on the estimated future cash flows of the investments). A significant or prolonged decline in the fair value of an equity investment below its cost is also considered an objective evidence of impairment. Impairment losses are taken to profit and loss account.

4.5 Advances including net investment in finance lease and ijarah arrangements (Applicable before 01 January 2024)

4.5.1 Loans and advances

Loans and advances and net investments in finance lease are stated net of provision for loan losses against non-performing advances. Provision for loan losses is made in accordance with the Prudential Regulations issued by the SBP and the SECP and is charged to profit and loss account. The Group also maintains general provision in addition to the requirements of the Prudential Regulations on the basis of management's assessment of credit risk characteristics and general banking risk such as nature of credit, collateral type, industry sector and other relevant factors. Advances are written-off in line with the Group's policy when there are no realistic prospects of recovery.

4.5.2 Finance lease receivables

Leases where the holding company transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee are classified as finance lease. A receivable is recognised at an amount equal to the present value of the minimum lease payments including guaranteed residual value, if any. Finance lease receivables are included in advances to the customer.

4.5.3 Islamic finance and related assets

Ijarah

Ijarah assets are stated at cost less depreciation and are disclosed as part of 'Islamic financing and related assets. Rental received / receivable on Ijarah are recorded as income / revenue. The Group charges depreciation from the date of recognition of Ijarah of respective assets to Lessee (mustajir). Ijarah assets are depreciated over the

period of Ijarah using the straight line method. Ijarah rentals outstanding are disclosed in 'other assets' on these consolidated statement of financial position at amortised cost.

Diminishing Musharaka

Under diminishing musharaka based financing, the Group enters into a musharaka based on shirkat-ul-milk for financing an agreed share of fixed asset (e.g. house, land, plant or machinery) with its customers and enters into rental payment agreement for the utilization of the Group's musharaka share by the customer. The Group receives periodic payments from its customers partly for renting its portion of the assets and partly for gradual transfer / sale of its ownership. The rental payments are recognised in profit and loss account whereas transfer / sale payments are applied towards reducing the outstanding principal.

Running Musharaka

Under Running musharaka, the Group enters into financing with the customer based on Shirkatul Aqd in the customer's operating business. Under this mechanism the customer can withdraw and return funds to the Group subject to his Running musharaka Financing limit during the Musharaka period. At the end of each quarter / half year the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly / half yearly / annual accounts of the customer.

Istisna

Under istisna financing, the holding company places an order to purchase some specific goods / commodities from its customers to be manufactured / delivered to the holding company within an agreed time. The goods are then sold and the amount financed along with profit is paid back to the holding company.

Al-Bai

The product is based on the Islamic mode "musawamah". Under this financing, the holding company purchases the goods from its customers on cash payment basis and after taking the possession by the holding company, the customer on behalf of the holding company sells them. Upon subsequent sale by the customer, the financed amount along with the profit is paid by the customer to the holding company.

Murabaha

Under Murabaha based financing, The Group purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.

Salam

In Salam, the seller undertakes to supply specific goods to the buyer at a future date in exchange of an advanced price fully paid at spot. The payment is at spot but the supply of purchased goods is deferred. The purchased goods by the holding company are then sold by the customer on behalf of the holding company and the financed amount along with profit is paid to the holding company.

4.6 Property and equipment

4.6.1 Capital work-in-progress

Capital work in progress is stated at cost less impairment loss, if any and consists of expenditures incurred and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.

4.6.2 Property and equipment

Property and equipment are stated at cost, except for land and buildings which are carried at revalued amount, less any applicable accumulated depreciation and accumulated impairment losses, if any. Land and buildings are stated at revalued amount less accumulated depreciation (in case of buildings) and accumulated impairment losses, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the asset at the rates specified in note 11.2 to these consolidated financial statements. Depreciation on additions during the year is calculated from the date of addition. In case of disposals during the year, the depreciation is charged till the date of disposal.

Subsequent cost are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to The Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the consolidated profit and loss account.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognised in the profit and loss account in the year the asset is derecognised.

The residual values, useful lives and depreciation methods are reviewed and changes, if any, are treated as change in accounting estimates, at each statement of financial position date.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that their net carrying amount does not differ materially from their fair value. If an asset's carrying value increases as a result of revaluation, such increase or surplus arising on revaluation is credited to the surplus on revaluation of property and equipment account. If an asset's carrying amount is decreased as a result of a revaluation, the decrease shall be recognised in the consolidated profit or loss account. However, if the increase reverses a deficit on the same asset previously recognised in the consolidated profit and loss account, such an increase is also recognised in the consolidated profit and loss account to the extent of the previous deficit and thereafter in the surplus on the revaluation of property and equipment account.

In the case of revalued assets, any accumulated depreciation on the date of revaluation is eliminated against the gross carrying amount of the net asset and the net amount restated at the revalued amount of the asset.

Surplus on revaluation of property and equipment (net of any associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

Surplus on revaluation (net of any deferred tax) realized on disposal of land and building is transferred directly to unappropriated profit.

4.6.3 Right-of-use assets and their related lease liabilities

The Group recognises a right-of-use asset and lease liability (note 4.14) at the lease commencement date. The right-of-use asset is initially measured at amount equal to present value of lease liability, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of right-of-use asset or end of the lease term.

4.7 Intangible assets

These are stated at cost less accumulated amortisation and impairment, if any. The cost of intangible assets are amortised from the month when the assets are available for intended use, using the straight line method, whereby the cost of the intangible asset is amortised over its estimated useful life over which economic benefits are expected to flow to The Group. The useful life and amortisation method is reviewed and adjusted, if appropriate, at each consolidated statement of financial position date.

4.8 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially recorded at cost and subsequently carried at revalued amounts less accumulated depreciation and impairment, if any. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation of property is credited to the 'surplus on revaluation of non-banking assets' account and any deficit arising on revaluation is taken to the consolidated profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to the consolidated profit and loss account.

Depreciation on assets (other than land) acquired in satisfaction of claims is charged to the consolidated profit and loss account on the same basis as depreciation charged on The Group's property and equipment.

If the recognition of such assets results in a reduction in non-performing loans, such reductions and the corresponding reductions in provisions held against non-performing loans are disclosed separately.

These assets are generally intended for sale. Gains and losses realised on the sale of such assets are disclosed separately from gains and losses realised on the sale of property and equipment. Surplus on revaluation (net of deferred tax) realised on disposal of these assets is transferred directly to unappropriated profit.

If such an asset is subsequently used by The Group for its own operations, the asset is transferred to property and equipment along with any related surplus.

4.9 Derivative financial instruments

Derivative financial instruments consist of Forward foreign exchange contracts, which are initially recognised at fair value at the date on which the derivative contract is entered into and are subsequently remeasured at fair value. All derivative financial instruments are carried as asset when fair value is positive and liabilities when fair value is negative. Any change in the value of derivative financial instruments is taken to the consolidated profit and loss account.

4.10 Credit loss allowance / Provisions

Expected credit loss allowance against identified off-balance exposure is recognised when intimated and reasonable certainty exists for The Group to settle the obligation. The loss is charged to the consolidated profit and loss account net of expected recovery and is classified under other liabilities.

Other provisions are recognised when The Group has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each consolidated statement of financial position date and are adjusted to reflect the current best estimate.

4.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the consolidated profit and loss account except to the extent that it relates to the items recognised directly in equity, in which case it is recognised in equity.

4.11.1 Current

Provision for current taxation is based on taxable income for the year at the current rates of taxation after taking into consideration available tax credits and rebates. The charge for the current tax also includes adjustments where considered necessary, relating to prior years which arise from assessments framed / finalised during the year.

4.11.2 Deferred

Deferred tax is recognised using the balance sheet liability method on all major temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amount used for taxation purposes. Deferred tax is measured at the tax rate that are expected to be applied on the temporary differences when they reverse, based on the tax rates that have been enacted or substantially enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that the future taxable profit will be available against which the asset can be utilised. Deferred tax assets are reviewed at each consolidated statement of financial position date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

The Group also recognises deferred tax asset / liability on deficit / surplus on revaluation of assets and actuarial gain / losses recognised in consolidated statement of other comprehensive income, which is adjusted against the related deficit / surplus.

4.12 Deposits / Borrowings

Deposits / Borrowings are recorded at the amount of proceeds received. The cost of deposits is recognised as an expense on an accrual basis in the period in which it is incurred.

4.13 Employees' benefits

The actuarial valuation is carried out annually as at these consolidated statement of financial position date using the "Projected Unit Credit Actuarial Cost Method".

All actuarial gains and losses are recognised in other comprehensive income as they occur and are not reclassified to the consolidated profit and loss account in subsequent periods.

The actuarial valuation under the "Projected Unit Credit Actuarial Cost Method" has been carried out by The Group for the determination of the liability for compensated absences. Liability so determined is fully recognised by The Group.

4.14 Lease liability against right-of-use assets

The lease liability is initially measured at the present value of the lease payments that are unpaid at the commencement date, discounted using The Group's incremental borrowing rate as the interest rate implicit in the lease cannot be readily determined. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

4.15 Revenue recognition

Revenue is recognised to the extent that the economic benefits will flow to The Group and the revenue can be reliably measured. These are recognised as follows:

4.15.1 Advances and investments

- Mark-up / return / interest on regular loans / advances and debt securities investments is recognised on a time proportion basis that take into account the effective yield on the asset. Where debt securities are purchased at premium or discount, the same is amortised through the consolidated profit and loss account using the effective interest rate method.

- Dividend income is recognised when The Group's right to receive the dividend is established.
- Gains and losses on sale of investments are recognised in the consolidated profit and loss account.
- Income on bills discounted are recognised over the period of the bill.

4.15.2 Lease financing / Ijarah contracts

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognised on receipt basis.

Rental income on these ijarah is recognised in The Group's consolidated profit and loss account on a time proportion basis, while depreciation is calculated on Ijarah assets on a straight line basis over the period of ijarah.

Gains / losses on termination of lease contracts and other lease income are recognised when realised.

At each consolidated statement of financial position date, The Group reviews the carrying amount of its assets (other than deferred tax asset) to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of relevant asset is estimated. Recoverable amount is the greater of the net selling price and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the assets is reduced to its recoverable amount. The resulting impairment loss is recognised as an expense immediately in the consolidated profit and loss account. These mainly represent counter claims by borrowers for damages and other claims against the Group. Management is confident that the matters will be decided in the holding company's favour. Accordingly, no provision has been made in these consolidated financial statements.

23.3.2 Foreign exchange repatriation case

While adjudicating foreign exchange repatriation cases of exporters, the foreign exchange Adjudicating Court of the State Bank of Pakistan has adjudicated a penalty of Rs. 106,056 thousand, arbitrarily on the holding company. The holding company has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgement. The Honorable High Court has granted relief to the holding company by way of interim orders. Based on merits, management is confident that these appeals shall be decided in favor of the holding company and therefore no provision has been made against the impugned penalty.

23.4 Income tax related contingencies are disclosed in note 34.2 to these consolidated financial statements.

24. DERIVATIVE FINANCIAL INSTRUMENTS

The holding company deals in derivative financial instruments namely forward foreign exchange contracts and foreign currency swaps with the principal view of hedging the risks arising from its trade business.

As per the holding company's policy, these contracts are reported on their fair value at the statement of financial position date. The gains and losses from revaluation of these contracts are included under "Foreign exchange income". Mark to market gains and losses on these contracts are recorded on the statement of financial position under "other assets / other liabilities".

These products are offered to the holding company's customers to protect from unfavorable movements in foreign currencies. The holding company hedges such exposures in the inter-bank foreign exchange market.

These positions are reviewed on a regular basis by the holding company's Asset and Liability Committee (ALCO).

38.9.1 The above amount represents balance which is deposited or placed with the branches of the holding company. Further, the funds primarily invest in Government securities which do not carry any credit risk. These are subject to interest rate risk based on market movements. These risks are regularly monitored by the Trustees of the employee funds.

38.10 Sensitivity analysis

Sensitivity analysis has been performed by varying one assumption keeping all other assumptions constant and calculating the impact on the present value of the defined benefit obligations under the various employee benefit schemes. The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption is summarized below:

	2024 Rupees in '000
1 % increase in discount rate	2,475,531
1 % decrease in discount rate	2,879,359

10% decrease in expected withdrawal rate	2,609,137
1% increase in expected mortality rate	2,609,813
1% decrease in expected mortality rate	2,607,804

Although the analysis does not take account of the full distribution of expected cash flows, it does provide an approximation of the sensitivity of the assumptions shown.

38.12 Expected charge for the next financial year

38.13 Maturity profile

The weighted average duration of the obligation is 9.6 years.

38.14 Funding Policy

The Group has the policy to make annual contributions to the fund based on actuarial report.

38.15 Significant risk associated with the staff retirement benefit schemes include:

Asset volatility	The risk of the investment underperforming and being not sufficient to meet the liabilities.
Changes in bond yields	The duration of the liabilities is 9.6 Years. Based on the weighted average duration of this plan and guidance from Pakistan Society of Actuaries ("PSOA"), the discount rate used for the calculations is 16.00% per annum.
Inflation risk	The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.
Mortality rate	The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.
Withdrawal rate	The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

39. DEFINED CONTRIBUTION PLAN AND COMPENSATED ABSENCES

39.1 Provident fund

The Group (the Bank and two subsidiaries) operates contributory provident fund schemes for permanent employees. The employer and employee each contribute 10% of the basic salary to the funded schemes every month.

41. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than investment those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

The fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings are frequently repriced.

41.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

41.3 Valuation techniques used in determination of fair valuation of financial instruments within level 2

Federal government debt securities	The fair value of government securities are valued using PKRV, PKFRV, PKISRV and PSX rates.
Debt securities other than federal government securities	The fair value is determined using the prices / rates available on Mutual Funds Association of Pakistan (MUFAP) / Reuters website and PSX.
Forward contracts	The fair values are derived using forward exchange rates applicable to their respective remaining maturities.
Mutual funds	The fair value is determined based on the net asset values published at the close of each business day.

Valuation techniques used in determination of fair values of non-financial assets within level 2

Property and equipment and non-banking assets acquired in satisfaction of claim	<p>Property and equipment and non-banking assets are valued by professionally qualified valuers. The valuation is based on their assessment of the market value of the assets. In determining the valuation for land and building the valuer refers to numerous independent market inquiries from local estate agents / realtors in the vicinity to establish the present market value. The fair valuation of land and building are considered to represent a level 2 valuation based on significant non-observable inputs being the location and condition of the assets.</p> <p>The fair value is subject to change owing to changes in input. However, management does not expect there to be a material sensitivity to the fair value arising from the non-observable inputs.</p>

46. RISK MANAGEMENT

Risk management aspects are embedded in the holding company's strategy, organization structure and processes. The holding company has adopted a cohesive risk management structure for credit, market, liquidity and operational risk with an integrated approach to strengthen the process and system as controls are more effective and valuable when built into the process. Effective risk management is considered essential in the preservation of the assets and long-term profitability of the holding company. Clear guidelines and limits, which are under regular review, are backed by a system of internal controls and independent audit inspections. Internal reporting / MIS are additional tools for measuring and controlling risks. Separation of duties is also embedded in the holding company's system and organization.

46.1 Credit Risk

Credit risk arises from the possibility that the counterparty in a transaction may default. It arises principally in relation to the lending and trade finance business carried out by the holding company.

As per Basel II methodology the gross credit risk weighted exposure incorporating relevant credit conversion factor is Rs. 474,510,547 thousand (2023: Rs. 428,865,561 thousand) as depicted in note 42.

The Group's strategy is to minimize credit risk through a strong pre-disbursement credit analysis, approval and risk measurement process added with product, geography and customer diversification. The holding company, as its strategic preference, extends trade and working capital financing, so as to keep the major portion of exposure (funded and non-funded) on a short-term, self-liquidating basis. Major portion of the holding company's credit portfolio is priced on flexible basis with pricing reviewed on periodic basis.

With the expansion of the Consumer lending portfolio, the Credit Review & Administration efforts have been accordingly enhanced by inducting specialized consumer credit risk analysts and processing specialists.

Centralized Credit and Trade processing centres staffed with experienced resource provide strength to post-disbursement aspect of credit risk management.

The Group's credit policy / manual defines the credit extension criteria, the credit approval and monitoring process, the loan classification system and provisioning policy.

The Group continually assesses and monitors credit exposures. The group follows both objective and subjective criteria of SBP regarding loans classification. The subjective assessment process is based on management's judgement with respect to the borrower's character, activity, cash flow, capital structure, security, quality of management and delinquency.

The Group uses the 'Standardised Approach' in calculation of credit risk and capital requirements.

The Group uses reputable and the SBP approved rating agencies for deriving risk weight to specific credit exposures. These are applied consistently across the Group credit portfolio for both on-balance sheet and off-balance sheet exposures. The methodology applied for using External Credit Assessment Institutions (ECAI's) inclusive of the alignment of alpha numeric scale of each agency used with risk bucket is as per the SBP guidelines as is given below:

The forms of collateral that are deemed eligible under the 'Simple Approach' to credit risk mitigation as per the SBP guidelines are used by the Group and primarily includes cash, government, equity investment in blue chip companies and rated debt securities.

The Group applies the SBP specified haircut to collateral for credit risk mitigation. Collateral management is embedded in the Group's risk taking and risk management policy and procedures. A standard credit granting procedure exists which has been well-disseminated down the line, ensuring proper pre-sanction evaluation, adequacy of security, pre-examination of charge / control documents and monitoring of each exposure on an ongoing basis.

Collateral information is recorded diligently in the Group's main processing systems by type of collateral, amount of collateral against relevant credit exposures. A cohesive accounting / risk management system facilitates effective collateral management for Basel II reporting.

Particulars of group's significant on-balance sheet and off-balance sheet credit risk in various sectors are analysed as follows:

46.1.7 Incorporation of forward-looking information in ECL

The assessment of Expected Credit Loss (ECL) calculation incorporates forward looking information. Forward-looking aspect introduces an extra dimension, which is often captured by relating expected losses to the macro-economic variables. The incorporation of macroeconomic factors increases the accuracy of the results produced and makes it more reliable to predict estimate future results more accurately.

The Group uses historic and forecasted data to determine the impact of macroeconomic factors to estimate Probability of Default (PD) and Loss Given Default (LGD) etc. Further, statistical models based on historical correlation is performed to identify most significant macro-economic variable(s) that have been recognised as contributors to the default performance of the portfolio. The macro-economic variables (including KSE 100 Index, Consumer Price Index and Crude Oil Price) used in the ECL calculation are fetched from the World Bank, International Monetary Fund (IMF) and State Bank of Pakistan (SBP) database and the relevant macro-economic variables are selected based on sensitivity of each of the portfolios to specific macro-economic variables. Three macroeconomic scenarios have been developed base, best, and worst with assigned scenario probability weightings of 70%, 15%, and 15% respectively.

The Group conducted a sensitivity analysis on macro-economic indicators which are utilized for forward-looking calculations. As of December 31, 2024, when the macro-economic indicators in the base scenario was adjusted upwards or downwards by 10%, the ECL showed the following variation:

Segment	Upwards	Downwards
Corporate	-9.59%	15.34%
SME	-5.69%	8.64%
Agriculture	-30.93%	37.05%

46.1.8 Sensitivity of ECL to future economic conditions

The ECL are sensitive to judgements and assumption made regarding formulation of forward-looking scenarios and how much such scenarios are incorporated into calculations. The Group performs sensitivity analysis on the ECL recognised on each of its segments.

The table below shows the loss allowance on each segment assuming each forward-looking scenario (e.g. Base, worst and best) were weighted 100% instead of applying scenario probability across the three scenarios.

46.3 Operational Risk

The Group operates in a controlled manner and operational risk is managed effectively. With the evolution of operational risk management (ORM) into a separate distinct discipline, the Group's strategy is to further strengthen operational risk management system along new industry standards.

The holding company's ORM strategy takes guidance from Basel - II, the SBP guidelines and best industry practices.

The holding company's ORM framework includes Risk Control Self-Assessment (RCSA), Key Risk Indicators (KRIs), Operational Risk Events Management, Change Risk Assessment and Risk Assessment of Outsourcing arrangement. The ORM unit engages with the holding company's business/support units and regularly collaborates in determining and reviewing the inherent operational risks, and assessment of residual risk leading to improved quality of control infrastructure and further strengthening of the processes & management information. Moreover, group wide policies, procedures, frameworks and product programs are also being evaluated from operational risk perspective aiming to beef up control environment.

The Group's business continuity plan includes risk management strategies to mitigate inherent risk and prevent interruption of mission critical services caused by disaster event. The Business Continuity Management function with the support of the senior management remained extremely active during the pandemic to ensure that stakeholders remained safe, all critical services and processes of the Group remain operational and any contingency arising is dealt appropriately. The Group's operational risk management governance has been further strengthened through the establishment of a separate Operational Risk and Control Committee.

The Group uses Basic Indicator Approach (BIA) for regulatory capital at risk calculation for operational risk. Under BIA the capital charge for operational risk is a fixed percentage of average positive annual gross income of the Bank over the past three years. Figures of capital charge of operation risk for the year is Rs. 11,825,795 thousand (2023: Rs. 9,260,191 thousand).

46.4 Liquidity Risk

Liquidity risk is the risk that the Group will not be able to raise funds to meet its commitments.

Governance of Liquidity risk management

The ALCO continuously monitors the liquidity position and the Group is confident that the current liquidity buffer is sufficient to cater to any adverse movement in the maturity profile.

Liquidity and related risks are managed through standardized processes established in the Group. The management of liquidity risk within the Group is undertaken within limits and other parameters set by the BoD. The holding company's treasury function has the primary responsibility for assessing, monitoring and managing the holding company's liquidity and funding strategy while overall compliance is monitored and coordinated by the ALCO. Board and senior management are apprised of the Group's liquidity profile to ensure proactive liquidity management. Treasury Middle Office being part of the risk management division is responsible for the independent identification, monitoring and analysis of intrinsic risks of treasury business. The Group has in place duly approved Treasury investment policy and strategy along with liquidity risk tolerance/appetite levels. These are communicated at various levels so as to ensure effective liquidity management for the Group.

Liquidity position of the Group remained strong in spite of approving deferment requests of principal & restructured loan, in line with the SBP directives. The holding company's strong deposit base backed by continued customer confidence and holding of government securities has enabled the Group to maintain a robust liquidity profile, also depicted through a strong LCR ratio.

Funding Strategy

The Group's liquidity model is based on "self-reliance" with an extensive branch network to diversify the holding company deposit base. Further, the holding company can also generate liquidity from Interbank market against government securities to fund its short term requirement, if any. The holding company as a policy invests significantly in highly liquid government securities that can be readily converted into cash to meet unforeseen liquidity requirements, besides yielding attractive returns.

Liquidity Risk Mitigation techniques

Various tools and techniques are used to measure and evaluate the possible liquidity risk. These include regular monitoring of different liquidity ratios against approved triggers and communication to senior management and the ALCO. Further, the Group also prepares the maturity profile of assets and liabilities to keep track of liquidity gaps over different time buckets. The holding company also ensures that statutory cash and liquidity requirements are maintained at all times.

Liquidity Stress Testing

As per the SBP BSD Circular No. 1 of 2012, Liquidity stress testing is being conducted under well-defined stress scenarios. Results of same are escalated at the senior level so as to enable the senior management to take proactive actions to avoid liquidity crunch.

Contingency Funding Plan

Contingency Funding Plan (CFP) is a part of liquidity management framework of the Group which defines and identifies the factors that can instigate a liquidity crisis and the actions to be taken to manage the crisis. The Group has a comprehensive liquidity contingency funding plan in place, which highlights liquidity management strategy to be followed under stress conditions. Contingency Event Management parameters and responsibilities are also incorporated in order to tackle the liquidity crisis. Moreover, CFP highlights possible funding sources focusing on self-reliance, in case of a liquidity crisis.

Under the general deposits pools, the Bank accepts funds on Modaraba basis from depositors (Rabb-ul-Maal) where the Bank acts as Manager (Mudarib) and invests the funds in Shariah Compliant modes of financing, investments and placements. All the Modaraba based remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBD's own share of equity, which is also commingled in the pool. The applications of these funds are on Islamic financing and related assets, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS Pool caters the 'Islamic Export Refinance' requirements based on the guidelines issued by the SBP.

- Contracted period, nature and type of deposit / fund.
- Payment cycle of profit on such deposit / fund, i.e. monthly, quarterly or on maturity

شریہ بورڈ کی رائے

شریہ گورننس فریم ورک کے مطابق بورڈ آف ڈائریکٹرز اور مینجمنٹ اس امر کو یقینی بنانے کے لئے ذمہ دار ہیں کہ بینک کے آپریشنز اس طرح سے انجام دیے جائیں کہ تمام اوقات میں شرعی اصولوں پر مکمل عملدرآمد ہو سکے، جبکہ ہمارے لیے بینک کے مجموعی شرعی اصولوں کے مطابق ہونے پر ایک رپورٹ پیش کرنا مطلوب ہے۔

ہماری رائے کو تقویت دینے کیلئے جیسا کہ اس رپورٹ میں اظہار کیا گیا ہے ہم نے شریہ کمیٹی کے پاس پارانٹ، انٹرنل شریہ آڈٹ اور ایکسٹرنل شریہ آڈٹ کی رپورٹس کا جائزہ لیا، جنہوں نے متعلقہ دستاویزی عمل اور پروسیس فلوز کے ساتھ ٹرانزیکشنز کی ہر ایک کا اس کیلئے ٹیسٹ چیک کی بنیاد پر اپنے جائزے اور آڈٹ کو انجام دیا تھا۔

مذکورہ بالا تفصیل کی بنیاد پر ہماری رائے درج ذیل ہے کہ:

- i بینک نے شریہ بورڈ کی جانب سے جاری کردہ فتاویٰ، احکام اور رہنما ہدایات کی روشنی میں شریہ کے قوانین اور اصولوں کی پاسداری کی ہے۔
- ii بینک نے اسٹیٹ بینک آف پاکستان کی شریہ ایڈوائزری کمیٹی کے احکام کے مطابق اسٹیٹ بینک کی جانب سے جاری کردہ شریہ کمیٹی کے متعلق احکام، ہدایات اور اصولوں کی پاسداری کی ہے۔
- iii بینک اپنے تمام تر آپریشنز میں شرعی اصولوں پر عملدرآمد کو یقینی بنانے کے لئے ایک جامع نظام کا حامل ہے۔
- iv بینک میں ایک انتہائی منظم نظام موجود ہے جو تمام تر غیر شرعی ذرائع سے حاصل شدہ رقم چیزیں یا اکاؤنٹس میں جمع کیے جانے اور اسے مناسب طور پر خیراتی اداروں میں بروئے کار لانے کو یقینی بناتا ہے۔
- v بینک نے نفع و نقصان کی تقسیم اور پول مینجمنٹ کے سلسلے میں اسٹیٹ بینک کی ہدایات کی مناسب طور پر پاسداری کی ہے۔
- vi لریٹنگ ایڈویزیٹو پلینٹ ڈیپارٹمنٹ اور مینجمنٹ نے ملازمین کی صلاحیتوں میں اضافے کے لئے مختلف اسلامک بینکنگ سیشنز کا اہتمام کیا اور اسلامک بینکنگ سیکشن کے احوال کے لیے مستقل عمل میں ہے۔ اس سلسلے میں پروڈکٹس اور پروسیسز میں شرعی اصولوں کی تعمیل کو سراہنے میں بینک کی مینجمنٹ اور بورڈ کی حساسیت اور صلاحیت قابل قبول ہے۔
- vii شریہ بورڈ کو اس کی ذمہ داریوں کی ادائیگی کے لئے وسائل فراہم کیے گئے ہیں تاہم کام کے حجم میں اضافے کو مد نظر رکھتے ہوئے شریہ ٹیم میں اضافی افرادی قوت، بینک میں شریہ کمیٹی کے فنکشن کو مزید مستحکم کرے گی۔

تجاویز

درج بالا جائزے کی بنیاد پر ہم تجویز کرتے ہیں کہ بینک کو:

- 1 آئین پاکستان اور اسٹیٹ بینک آف پاکستان کے اسٹریٹجک پلان کو مد نظر رکھتے ہوئے نوٹیفیشنل براچر کی تبدیلی اور اسی طرح نئی اسلامک بینکنگ براچر کھولنے کے ذریعے اپنے نیٹ ورک کی ہر سطح پر عمرانی کے میکانزم کو یقینی بنانا اور نئی ٹرانسنگ کا عمل جاری رکھنا چاہیے۔
- 2 اسٹیٹ بینک کی ہدایات کے مطابق اپنی انتظامیہ، اسلامی بینکنگ اسٹاف، تمام متعلقہ عملے اور صارفین کیلئے اسلامی بینکاری کی تربیت، ریفریشر سیشنز، اوپننگ سیشنز اور اسلامی بینکنگ کی جانب ذہن سازی کیلئے ٹریننگ کے انتظامات جاری رکھنے چاہیے۔
- 3 تمام تر دستیاب فورمز پر اسلامی بینکاری کی پروڈکٹس اور سروسز کی پروموشن اور مارکیٹنگ کو مزید فروغ دینے کا سلسلہ جاری رکھنا چاہیے۔
- 4 قومی ترجیحات اور عالمی بہترین طریقوں کے مطابق اسلامک بینکنگ پروڈکٹس کے ذریعے پائیدار ترقیاتی اہداف اور گورنری بینکنگ کو فروغ دینا چاہیے۔

اور اللہ جملہ دعائی بھج جاتا ہے

اللہ تعالیٰ ہماری کوششوں کو قبول فرمائیں اور ہمیں اس کے مطلوب امور کی تکمیل کرنے کی توفیق عطا فرمائیں، ہماری غلطیوں کو معاف فرمائیں اور ہمیں دنیا اور آخرت میں بھی کامیابی سے ہمکنار فرمائیں، ہم یہ بھی دعا کرتے ہیں کہ اللہ تعالیٰ کی رحمتانی اور اس کی کرم نوازیوں سے اسلامی بینکنگ کو مزید فروغ اور استحکام عطا فرمائیں۔ آمین

انٹرنل آڈٹ

حبیب میٹرو ایک موثر بورڈ آڈٹ کمیٹی کا حامل ہے جو سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کی جانب سے طے کردہ اور اسٹیٹ بینک آف پاکستان کی جانب سے مروجہ سلیڈ کمیٹیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز، 2019ء کے تحت کام کرتی ہے۔ بورڈ کی آڈٹ کمیٹی آزاد ڈائریکٹرز پر مشتمل ہے اور اس کی سربراہی ایک آزاد ڈائریکٹر کے سپرد ہے۔

بورڈ آڈٹ کمیٹی کو براہ راست رپورٹ کرتے ہوئے، انٹرنل آڈٹ فعال طور پر برانچوں کے آڈٹ، آپریشنز اور بینک کی اہم سرگرمیوں کیلئے خطرات پر مبنی نکتہ نظر کا استعمال کرتا ہے اور اس کیساتھ ضرورت کے تحت اصلاحی اقدامات اور کنٹرول کی خامیوں کے تدارک پر خصوصی توجہ دیتا ہے۔

انٹرنل آڈٹ حبیب میٹرو کی تیسری دفاعی لائن کی حیثیت سے، بینک کے مجموعی کنٹرول کے ماحول میں بنیادی عنصر ہے۔ جو کہ انتظامیہ اور بورڈ کو بینک کے انٹرنل کنٹرول سسٹم کا جائزہ لینے اور جاننا یقین دہانی فراہم کرتا ہے۔ انٹرنل آڈٹ ایک مخصوص مدت کے اندر بینک کی پالیسیز، افعال، سسٹمز اور کنٹرول کا جائزہ لیتا ہے تاکہ بورڈ آڈٹ کمیٹی کے لیے مناسب یقین دہانی فراہم کی جائے اور بینک کی جانب سے خطرات کے تدارک کی کوششوں کے ضمن میں طریقوں کا اضافہ کیا جائے۔

مستقبل پر ایک نظر

پاکستان کی معیشت عالمی بحرانوں مثلاً تجارت کی بحالی اور جیو پالیٹیکل غیر یقینی صورتحال کے باوجود قابل قدر گروتھ ظاہر کر رہی ہے۔ مہنگائی، میں کمی، شرح سود میں سہولت اور ایشیائی صرف کی مستحکم قیمتوں کے ساتھ سرمایہ کاری اور فنی شعبے کی توسیع کے لیے ماحول اس وقت موزوں ہے۔ تاہم مسائل جیسا کہ اسٹریٹجی میں عدم توازن، مالیاتی سختی اور بلند تر سرمایہ کاری قرضوں کو جاری اصلاحات کی ضرورت ہے۔

معاشی منظر نامہ مستحکم ہوتی ہوئی میکرو اکنامک صورتحال، کلیدی شعبوں میں بنیادی اور بتدریج بحالی کے ساتھ حوصلہ افزا ہے۔ مہنگائی آنے والی سرمایہ بیوں میں اوسطاً سہولت فیصد کی طویل مدتی بنیاد پر مستحکم رہنے، معاشی سرگرمیوں کو فروغ ملنے اور پالیسی ریت میں مزید کمی کی توقع ہے، جس کے نتیجے میں قرضوں کے اخراجات کم ہوں گے جس سے سرمایہ کاری اور معاشی بحالی بالخصوص لارج اسکیل مینوفیکچرنگ اور خدمات، جو اس گروتھ کے کلیدی شعبے ہیں، کو مزید فروغ حاصل ہوگا۔

تجارتی محرکات بہتر ہونے کے امکانات ہیں اس کے ساتھ برآمدات اور درآمدات کو وسیع تک اقتصادی سرگرمی سے معاونت ملے گی۔ زر ترسیلات کی آمد بڑھنے کے مستقل امکانات موجود ہیں جو بیرونی اکاؤنٹ کو مستحکم کرنے اور گھریلو ایشیائی صرف کو فروغ دینے میں شراکت کر رہے ہیں۔ قرضوں کے کم ہوتے اخراجات مالی استحکام کو بڑھائیں گے اور سرمایہ کاری خزانہ مضبوط ہوں گے، جس سے معاشی بحالی کے اقدامات کے لیے راستہ ہموار ہوگا۔ یہ رجحانات بے روزگاری میں بڑے پیمانے پر کمی لانے کا موجب ہیں کیونکہ اقتصادی سرگرمیاں تیزی سے بڑھیں گی۔ پائیدار اصلاحات اور لچک کے ساتھ پاکستان کی معیشت بہترین استحکام اور خوشحالی کے راستے پر گامزن ہے۔

اظہار تشکر

آخر میں ہم وزارت خزانہ، اسٹیٹ بینک آف پاکستان اور سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کے ان کی مستقل معاونت کیلئے بے حد شکر گزار ہیں۔ ہم اپنے معزز شیئر ہولڈرز اور صارفین کا بھی ان کے اعتماد کیلئے شکر یہ ادا کرتے ہیں جبکہ بورڈ آف ڈائریکٹرز کے ان کی رہنمائی اور حبیب میٹرو کے اسٹاف کے ان کی انتھک محنت اور لگن کے بھی مشکور ہیں جس سے ہمیں مضبوط سے مضبوط تر بننے کی صلاحیت فراہم کی ہے۔

ڈائریکٹرز رپورٹ برائے شیئر ہولڈرز

عزیز شیئر ہولڈرز،

یورڈ آف ڈائریکٹرز کی جانب سے ہم انتہائی مسرت کے ساتھ 31 دسمبر 2024 کو ختم ہونے والے مالی سال کیلئے حبیب میٹرو پبلشنگ اینڈ میڈیا (حبیب میٹرو) کے آڈٹ شدہ سالانہ مالیاتی گوشوارے پیش کر رہے ہیں۔

اقتصادی اور بینکاری کا جائزہ

زیر جائزہ مدت کے دوران پاکستان کی اقتصادی اور مالیاتی رفتار مثبت رہی، کثیرالجہتی اور دو طرفہ تجارت داروں کی جانب سے فنڈنگ کی بحالی کی وجہ سے بحالی کے ساتھ منسلک اصلاحی پالیسی اقدامات کے ساتھ ساتھ بین الاقوامی مالیاتی فنڈ (آئی ایم ایف) کے تجویز کردہ کفایت شعاری کے اقدامات پر تیزی سے عملدرآمد بھی شامل ہے۔ ملک میں سال بھر میں افراط زر میں واضح کمی دیکھی گئی جس کے نتیجے میں سال کی دوسری ششماہی سے شرح سود کم ہو گیا جس سے مالیاتی کھاتوں کے استحکام میں مدد ملی۔ تاہم معاشی نمو کے مناسب حد تک ہونے کا تخمینہ لگایا گیا جس کی بنیادی وجہ زراعت کے شعبے کی کمتز کارکردگی ہے۔

اسٹیٹ بینک آف پاکستان (ایس بی پی) نے پالیسی ریٹ کو 2024 کے دوران 900 بیس پوائنٹس سے کم کرتے ہوئے 22.0 فیصد سے 13.0 فیصد اور جنوری 2025 میں مزید کم ہو کر 12.0 فیصد تک کم کرتے ہوئے ایک اہم مانیٹری ایڈجسٹمنٹ کی ہے۔ جبکہ افراط زر مالی سال 2024 میں 23.9 فیصد سے کم ہو کر رواں مالی سال کے 7 ماہ میں 6.6 فیصد رہ گیا جو، جنوری 2025 میں سال بہ سال 2.4 فیصد تک پہنچ رہا ہے جس کے ذریعے عالمی سطح پر قیمتوں میں نرمی، ایک مستحکم زر مبادلہ کی شرح اور سازگار بنیادی اثرات کی حامل طے شدہ حکومتی پالیسیاں کی جانب سے معاونت حاصل ہوئی۔

محنت کشوں کی مستحکم تر سیلابات زر اور برآمدی آمدنی سے کارفرما، کرنٹ اکاؤنٹ نے 2024 کے گزشتہ تین مہینوں میں سرپلس ظاہر کیا جس کے نتیجے میں مالی سال 2025 کے سات ماہ میں 0.7 بلین امریکی ڈالر کا مجموعی سرپلس حاصل ہوا جبکہ گزشتہ سال کی اسی مدت میں 1.8 بلین امریکی ڈالر کا خسارہ ہوا تھا۔ مالی سال 25 کے سات ماہ کے دوران برآمدات مالی سال 24 کے سات ماہ کے مقابلے میں 7.3 فیصد تک بڑھ کر 23.9 بلین امریکی ڈالر ہو گئیں جبکہ برآمدات کا 10 فیصد بڑھ کر 40.0 بلین امریکی ڈالر رہی، یہ خسارہ جزوی طور پر محنت کشوں کی زر ترسیلات میں 31.7 فیصد کی نمایاں گروتھ سے پورا ہوتا ہے جو مالی سال 2025 کے سات ماہ میں 20.8 بلین امریکی ڈالر تک پہنچ گئیں۔ مالی سال 2025 کیلئے اسٹیٹ بینک کا توقع ہے کہ کرنٹ اکاؤنٹ سرپلس کی درمیانی رینج میں اور خسارہ جی ڈی پی کا 0.5 فیصد تک رہے گا۔

سال بہ سال کے لحاظ سے 8.8 فیصد تک کی بہتری کے ساتھ بینکاری کے شعبے کا بنیادی ڈیپازٹس دسمبر 2024 کے اختتام پر 30.3 ٹریلین روپے تک پہنچ چکا تھا، ایڈوانسز سال بہ سال کی بنیاد پر 29.6 فیصد تک بڑھ کر 16.0 ٹریلین روپے پر موجود تھے۔ اس مدت کے دوران سرمایہ کاریاں بھی سال بہ سال کے لحاظ سے 15.2 فیصد تک بڑھ کر 29.1 ٹریلین روپے ریکارڈ کی گئیں۔

مالی سال 2024 میں حاصل کی گئی اقتصادی بحالی مع جی ڈی پی کی شرح نمو 2.5 فیصد رہی جو اس کے برخلاف مالی سال 2023 میں 0.2 فیصد تھی، اور اس طرح مالی سال 2025 کی پہلی ماہ ہی میں 0.9 فیصد کی مثبت نمو برقرار رہی ہے۔ تاہم، ترقی گزشتہ سال ریکارڈ کی گئی 2.3 فیصد کے مقابلے میں مست ہوئی، جو کلیدی شعبوں، خاص طور پر زراعت میں اعتماد کی عکاسی کرتی ہے۔ زراعت میں مست ترقی بنیادی طور پر گزشتہ مالی سال کے فصلوں کے شعبے میں بلند تر بنیادی اثرات اور کپاس، چاول، گنے اور کئی کی فصل کی پیداوار میں کمی کی وجہ سے ہے۔ تاہم، ٹیکسٹائل سیکٹر، ہول سیل، خوردہ تجارت، بندرتیج تیز ہو رہی ہے اور دیگر متعلقہ شعبوں پر مثبت اثرات مرتب ہو رہے ہیں۔

یہ پیش رفت مرکزی بینک کی میکرو اکنامک صورت حال کو مستحکم بنانے کی موثر حکمت عملی اور پائیدار نمو کے لیے مناسب ماحول فراہم کرنے کی عکاس ہے۔ شرح سود میں نمایاں کمی سے نہ صرف کاروباروں اور صارفین کے لیے چھوٹے قرضے آسان ہوئے بلکہ سرمایہ کاری اور کھپت کی سرگرمیوں کی بھی حوصلہ افزائی ہوئی۔ تاہم، اگرچہ مانیٹری اشارے مثبت ظاہر ہوتے ہیں، تاہم اسٹرکچرل بحرانوں خصوصاً زرعی شعبے کو مجموعی اقتصادی کارکردگی کے ہم آہنگ بنانے کے لیے ان سے نمٹنا مشکل ہو سکتا ہے اور اس امر کو یقینی بنانا ہوگا کہ ان پالیسی اقدامات کے فوائد معیشت کے تمام شعبوں تک مکمل طور پر پہنچیں گے۔

سال کے دوران بینک کی کارکردگی

اللہ تعالیٰ کے فضل و کرم سے حبیب میٹرو نے 31 دسمبر 2024 کو ختم ہونے والے سال کے لئے 52,660 ملین روپے کا قبل از ٹیکس منافع ظاہر کیا، اور سال بہ سال کے لحاظ سے 1.3 فیصد کا اضافہ دیکھا گیا۔ فی شیئر آمدنی 23.55 روپے فی شیئر رہی۔

بینک کی خالص منافع کی آمدنی کی مالیت 70,314 ملین روپے رہی جبکہ غیر سودی آمدنی 39.2 فیصد کے نمایاں اضافے کے ساتھ 21,287 ملین روپے ہو گئی، بشمول فیس اور کمیشن کی آمدنی 14.4 فیصد تک بڑھ گئی اور 2023 کے 9,396 ملین روپے کے مقابلے میں 10,753 ملین روپے ہو گئی۔

8. Deduction of Withholding Tax from Dividend

The Government of Pakistan through Finance Act, 2020 has made certain amendments in section 150 of the Income Tax Ordinance, 2001 whereby different rates prescribed for deduction of withholding tax on the amount of dividend paid by the companies. These tax rates are as under:

- (a) For filers of income tax returns: 15%
- (b) For non-filers of income tax returns: 30%

To enable the Bank to make tax deduction on the amount of cash dividend @ 15% instead of 30%, all shareholders whose names are not entered in the Active Tax-Payers List (ATL) provided on the website of Federal Board of Revenue (FBR), despite the fact that they are filers, are advised to make sure that their names are entered into ATL at the earliest possible otherwise tax on their cash dividend (as and when declared) will be deducted @ 30%.

For shareholders holding their shares jointly as per the clarification issued by the FBR withholding tax will be determined separately on 'Filer/Non-Filer' status of Principal Shareholder as well as joint-holder(s) based on their shareholding proportions. Therefore, all shareholders who hold shares jointly are required to provide shareholding proportions of Principal Shareholder and Joint-holder(s) in respect of shares held by them follows:

Folio / CDC Account No.	Total Shares	Principal Shareholder		Joint Shareholder(s)	
		Name and CNIC No.	Shareholding Proportion (No. of Shares)	Name and CNIC No.	Shareholding Proportion (No. of Shares)

In case of non-receipt of above information, the shareholding will be divided among the joint-holders equally.

9. Unclaimed Shares and Dividends

As per the provisions of Section 244 of the Companies Act, 2017, any shares issued or dividends declared by the Bank, which remain unclaimed or unpaid for a period of three years from the date they became due and payable shall vest with the Federal Government after compliance of procedures prescribed under the Act. In compliance of the above, the Bank has already sent individual letters to the concerned shareholders requesting them to claim their outstanding cash dividends and/or bonus shares. In this respect and for facilitation of the shareholders, the details of unclaimed shares and dividends can also be accessed from the Bank's website.

Therefore, in view of the above, those shareholders who have not yet collected their pending entitlements are once again advised to lodge their claims with the Bank's Share Registrar at the address given above.

10. Availability of Annual Audited Accounts on Website

The audited accounts of the Bank for the year ended December 31, 2024 have been made available on the Company's website www.habibmetro.com. Additionally, the annual and quarterly accounts for the prior years and periods are also available.

Further, in accordance with SRO # 389(I)/2023 dated March 21, 2023, the shareholders of Habib Metropolitan Bank Limited in its AGM held on March 30, 2023 had accorded their consent for transmission of annual reports including annual audited accounts and other information contained therein of the Bank through QR enabled code and weblink instead of transmitting the same through CD/DVD/USB. Audited financial statements shall also be provided to those shareholders, who have provided their valid email IDs to our Share Registrar. The shareholders who wish to receive hard copies of the aforesaid documents may send the standard request form available on the Bank's website to the Company Secretary / Share Registrar, and the Bank will provide the aforesaid documents to the shareholders on demand, free of cost, within one week of such demand.

11. Video Conference Facility

In terms of the Companies Act, 2017, shareholders residing in a city other than Karachi holding at least 10% of the total paid up share capital may demand the facility of video-link for participating in the annual general meeting. The request for video-link facility shall be received by the Share Registrar at the address given hereinabove at least 7 days prior to the date of the meeting on the standard form available on the Bank's website.

12. Conversion of Physical Shares into Book-entry Form

As per Section 72 of the Companies Act, 2017, every existing company shall be required to replace its physical shares with book entry form in a manner as may be specified and from the date notified by the Commission, within a period not exceeding four years from the commencement of this Act. In this respect, the Securities & Exchange Commission of Pakistan (SECP) vide its Letter No. CSD/ED/Misc/2016-639-640, dated March 26, 2021 has advised all listed companies to pursue such shareholders still holding shares in physical form, requiring conversion of their shares into book-entry form.

Accordingly, the shareholders having physical shareholding are once again advised to open CDC sub-account with any of the CDC Participants to place their physical shares into book-entry form at their earliest. This will facilitate them in number of ways including safe custody and easy sale of shares at the time of need, as the trading of physical shares is not permitted under existing regulations of the Pakistan Stock Exchange Limited.
